## **BREXIT CHECKLIST** SUPPLY CHAIN AND CUSTOMS

Here's a list of action-steps to consider to respond to the requirements and impact of Brexit on your import and export.

| Registration |  |
|--------------|--|
|              | Ensure you have your <u>GB Economic Operator Registration and Identification (EORI)</u> number for moving goods in or out of the EU. |
|              | Get the EU EORI number of the businesses you're exporting to.  |
|              | Ask your suppliers if they have their EU EORI number and are ready to import to the UK.  |
|              | Register on the TSS Trader Support Service to get a separate XI EORI number for trading with Northern<br>Ireland.                    |
|              | Use the government's <u>Brexit Checker tool</u> to get a list of personalised actions for your business.                             |

## **Customs Declarations**

Check to see if your customs broker has experience in working with your product type and have trained staff that can manage declarations under the new procedures.

|   | stan that can manage declarations under the new procedures.  |  |
|---|--|--|
|   | You will need to be registered for the CHIEF system and have software compatible with CHIEF if you handle your own customs declarations.   |  |
|   | Keep up to date with the details of each non-EU countries' trade agreement with the UK to ensure goods are imported and exported with the correct procedures.                                  |  |
| Documentation and Classification of Goods |  |  |
|   | Check to see if your goods meet the new Rules of Origin requirements   |  |
|   | Ensure your goods' commodity codes are on your import declaration.   |  |
|   | Use the government's online checker tool to find out about any tax, duty rates or exporting documents you'll need.   |  |
|   | Check to see if you need specific certificates or licenses to export your goods.   |  |
|   | Ensure the invoice with the price you're selling the goods for and any required license or certificates travel with the goods.   |  |
| Import & Export VAT                       |  |  |
|   | Update your VAT import return, terminology and accountancy - VAT will be payable on import, but with the government's postponed VAT payment system you can account for VAT on your VAT return. |  |
|   | Include your VAT registration number on your customs declaration to qualify for accounting for VAT on your VAT return.   |  |
|   | Include the zero-rating VAT for exports in your accounting.  |  |
|   | Check to see if you need to update your accounting software to reflect changes to VAT reporting.   |  |
|   | If you choose to pay VAT at the tax point you'll need monthly C79 reports from HMRC.   |  |
| Audit & Stress Test Your Supply Chain     |  |  |
|   | Make sure your packaging complies with <u>ISPM15 guidelines</u> for exporting to the EU in wooden crates, pallets or boxes.  |  |
|   | Simulate the impact of your most likely risk scenarios to stress-test your supply chain. Can you adapt your supply chain to remove risks or minimise their impact?                             |  |
|   | Find out how much stock your suppliers have available and how quickly they can supply stock with the new regulations in place.   |  |
|   | Prepare a contingency plan - that might mean diversifying your suppliers and having more than one back-up.   |  |
| <b>Proactively Ma</b>                     | nage Relationships   |  |
|   | Conduct regular surveys with suppliers and contractors to solicit regular feedback on how to improve your communication and partnership.   |  |
|   | Renegotiate supply chain fees and prices in cases where you may be impacted by extra Brexit-related costs.   |  |
|   | Review Payment Terms - can you negotiate a discount for early payment, or negotiate later or staggered   |  |
